

We have been offended by Sinclair Broadcasting's "the Point" with Mark Hyman aired as part of our local news. I can no longer view Fox47 nightly news at nine due to his continual bashing of John Kerry particularly his service record. Hyman was in diapers when Kerry was laying his life on the line. "Stolen Honor" is also airwave pollution and amounts to compromise of our democracy. If this is allowed to air then all offensive material should also be aired. This is quite a gift to the Republican party and the legality will be questioned without a doubt. Please consider saving us the indignity of it all.
Regards,
David H. Johnson
